

Business Matching

Have you ever had trouble when entering an exhibition but didn't know how to search for the right exhibitor, and what to do? To solve that problem, we created a simple way to save your time, as well as help you meet your needs at our exhibition, which is the Biz-Matching 1:1 Program.

The Biz-Matching 1:1 Program is the most effective way to connect Buyers/ Distributors with Sellers/Manufacturers; Especially, this is an effective program to connect domestic enterprises with foreign enterprises as well as domestic enterprises in different localities.

We have a list of exhibitors participating in our exhibitions in all fields. Based on your own needs, you can choose the exhibitors that you are interested in buying, distribution or connecting later.

Not only serving the Biz-Matching 1:1 Program to our exhibitions only, we also provide this service to Business Delegation, Trade Mission Program, and to other exhibition organizers
